Areas of knowledge

- JavaScript, Typescript, HTML and CSS.
- Node.js and Express.js.
- React (state management with Recoil)
- Google Firebase: Firestore and Database.
- SQL databases with Sequelize.
- Hosting and deployment with Heroku.

Experiences

- **Alkemy:**
Fullstack (React + Javascript) acceleration course.
January 2022 – present.

Alkemy accelerates skills by generating performance metrics until reaching Job-Ready certification, simulating real work environments and applying agile methodologies (SCRUM with Jira).

Education

- **Fullstack Web Development** | Apx.school | April 2021 – in progress.
- **CS50: Introduction to computer science** | Harvard University | February 2021

Languages

Spanish (native), English (C2) - <https://www.efset.org/cert/8Tyecl>

Work experience

- **San Juan el Precursor School**
IT Support/Programming and robotics teacher
July 2021 – present.

I work in the IT area, supporting and maintaining the school's computers, video, and audio equipment. Also, I teach introduction to programming and robotics at the elementary level.

Other activities

- I like all kinds of sports, especially football.
- I am an amateur painter and photographer.
